Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The Examiner noted that upon reviewing the interview agenda and proposed claim amendments, the arguments and changes to claim 1 seem to overcome the prior art of record. Specifically that neither O'Leary or Sidles explicitly teaches communicating computer code to a user's computer for determining if a merchant website is a supported website. Applicant was advised that the filing of such an amendment after final would most likely result in the amendment not being entered, due to the altered scope of the claims. Applicant then stated their intention to file a Request for Continued Examination with the discussed changes.
